

Jeff Main - Managing Director at Bollard Load Testing Ltd (BLT)

Jeff has thirty years' experience in delivering innovative solutions to the marine engineering sector. His approach to solving problems led to the creation of the bollard load testing system and service.

Established in 2015, BLT is now the most accomplished and fastest growing company in the global field of marine mooring bollard load testing.

Multiple Award-winning OEM BLT has now completed bollard load testing at numerous leading ports throughout the UK and abroad and continues to appoint delivery partners worldwide.
