Circular 2/2021

10 January 2021

Dear Colleague,

Covid 19 Update

A happy and safe New Year to you all. As the country is gripped by a new variant of the coronavirus necessitating a fresh 'lockdown' by all nations of the UK, it is important to maintain personal safety by observing all the rules.

Maritime Pilots remain on the critical workers list namely those who will keep the air, water, road and rail passenger and freight transport modes operating during the coronavirus (COVID-19) response and EU transition, including those working on transport systems through which supply chains pass and those constructing or supporting the operation of critical transport and border infrastructure through which supply chains pass.

Pilots are able to access rapid testing if so needed and their children are able to access schooling during the school closures if required.
